Secure

Storage

Your metal in Abu Dhabi. Protected by ADGM.
Direct access. No intermediaries.

JURISDICTION

ADGM, Abu Dhabi

PARTNER

Etihad Secure Logistics

LEGAL FRAMEWORK

English Common Law

THE PROBLEM

\$13T

Annual global gold market volume — and most operations are still locked behind opaque intermediaries.

If you trade metals, you've already faced this:

Opaque fees from storage operators

Hard to understand what you're actually paying for

No controlled release mechanism

Every major deal carries counterparty risk

Unpredictable logistics

Timelines, documents, and insurance — all unpredictable

Regulatory uncertainty

Unclear jurisdiction and unclear dispute resolution

We solve this. Completely.

STORAGE

Allocated

Individually identified bars — liability within insurance coverage¹

Unallocated*

Client rights confirmed by warehouse storage agreement; insurance terms confirmed individually

Sealed Box

Individually sealed vault — maximum asset isolation

* Unallocated — client rights confirmed by warehouse storage agreement; insurance terms confirmed individually. ¹ Coverage per active insurance policy; details disclosed upon signing the agreement.

TRANSACTIONS

Metal Receipt & Delivery

Local and international, CIP / door-to-door. From 0.10% (min \$300 local, \$500 international)

Conditional Release²

Goods released only upon confirmation of transaction conditions — significantly reduces counterparty risk

Internal Transfers

Between storage positions within the vault. 0.05%

² Release conditions and operational procedure — governed by the operational agreement.

SERVICES

Assay XRF / fire

Quality verification per international standards

Refining / Smelting

Bar processing on client request

Warehouse Receipt³

Warehouse receipt for bank financing

³ WH Receipt is a storage document only; not a financial instrument.
